## DETAILED ACTION

### *Election/Restrictions*

Applicant's election without traverse of claims 1 and 2 in the reply filed on 2-5-2007 is acknowledged.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Endoh (US 6,556,537).

Endoh disclose an optical recording disk which has a plurality of pits indicative of information (col. 9, lines 5-15 and Fig 3). The shortest pit (7) has a conical shape and its depth (d2) is smaller than a depth (d1) of a pit (6) other than the shortest pit (col 16, lines 24-41, Fig 5).

***Allowable Subject Matter***

Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
